Hiring Manager

Goldman Sachs

Bangalore, India

Dear Hiring Manager,

I am writing to express my interest in the Frontend Developer position at Goldman Sachs. With a Bachelor of Technology in Computer Science from NIT Durgapur and over three years of professional experience building scalable and user-centric web applications, I am confident in my ability to contribute effectively to your team.

Throughout my career, I have specialized in developing responsive and dynamic UIs using React, JavaScript, TypeScript, Redux, Zustand, and Ant Design. My hands-on experience includes developing complex features, integrating REST APIs, optimizing performance, and writing unit tests using React Testing Library and Jest. I am also comfortable working with tools like Webpack, SVG components, and Bootstrap, and have contributed to Angular and Node.js projects as well.

At my current and past roles, I have worked on a range of impactful projects including:

- **Hiring Management System** – Streamlined hiring workflows with features like screening, interview scheduling, and candidate shortlisting.
- **Associate Portal** – Built an employee management platform with role-based access and secure data handling.
- **Elastotec LaggingSelect Tool** – Developed a data-driven UI to visualize physical property tests.
- **LocoSim** – Created a real-time locomotive simulation platform using WebSockets and SVG for interactive train tracking.

I am drawn to Goldman Sachs not only because of your industry leadership but also because of your commitment to innovation and excellence. I bring a strong work ethic, eagerness to learn, and a collaborative spirit. I am confident that my background in frontend technologies, combined with my problem-solving mindset, will allow me to contribute meaningfully from day one.

Thank you for considering my application. I would welcome the opportunity to further discuss how my skills and experience align with Goldman Sachs' goals. I look forward to the possibility of contributing to your team.

Warm regards,

Raju Hoque
